POF Compliance Memorandum Issued

A memorandum was issued in May to ensure compliance with German law on the possession of privately owned firearms. In addition to registering POFs with the U.S. Army Europe Registry of Motor Vehicles, owners must have a Waffenbesitzkarte (German weapons possession card) to comply with German laws. Owners who are not covered by a valid Waffenbesitzkarte or whose firearms are not already stored in an approved location (Rod and Gun Club or unit arms room) will need to move them to one, ship them at personal expense to a storage location outside Germany or arrange for pickup by a

U.S. government-contracted carrier for commercial storage at U.S. government expense.

Until then, firearms kept in quarters must be stored unloaded in a double lock-and-key system that is not easily accessible to anyone but the registrant. Gun cases designed for transporting firearms do not qualify. Ammunition must be stored in a locked container separate from the firearm. The entire memorandum is available at www.aeaim.hqusareur.army.mil/library/home.htm.

Voluntary Leave Request

Marlene Quiocho, an employee in the Mannheim area, and Ulanda Parker, an employee in the Hanau area, have been approved as leave recipients under the Voluntary Leave Transfer Program. Both are in urgent need of annual leave donations.

Parker is pregnant and threatened with premature labor and delivery. It is estimated she will be not be able to return to work until September.
